

GARDEN OF AZALEAS

Azaleas are known for their vibrant colors and fragrant blooms. Nestled in the southern region of the landscape, Garden of Azaleas is a collaborative site designed for low-income senior citizens who live alone. Through research and design, we have created a space that is both functional and beautiful, providing a sense of community and belonging. The design process was a collaborative effort, involving the input of the community and the design team. The result is a space that is both functional and beautiful, providing a sense of community and belonging. The design process was a collaborative effort, involving the input of the community and the design team. The result is a space that is both functional and beautiful, providing a sense of community and belonging.
